The Purpose of Celebrate Recovery

The purpose of Christ Community Church Celebrate Recovery ministry is to fellowship and celebrate God's healing power in our lives through the "8 Recovery Principles." This experience allows us to "be changed." By working and applying these Biblical principles, we begin to grow spiritually. We become free from our addictive, compulsive and dysfunctional behaviors. This freedom creates peace, serenity, joy and most importantly, a stronger personal relationship with God and others. As we progress through the program we discover our personal, loving and forgiving Higher Power - Jesus Christ, and principles for healing and overcoming our past.

The Genesis of Our Addiction

Our lust began as an overpowering desire for pleasurable relief from an inner pain, emptiness or insecurity that we were not able to cope with in any other way. At first, it did provide the relief we sought. For a time, sex with ourselves or with others dissolved the tension, relieved the depression, resolved the conflict, and provided the means to deal with, or escape from life's seemingly unbearable situations.

Eventually, our quest for relief became an addiction, and the addiction took on a life of its own. Pleasure and relief were gradually replaced with tension, depression, rage, guilt, and even physical distress. To relieve this new pain, we resorted to more sex and lust, losing more control in the process. We were driven to spend more time thinking about and carrying out our addiction. We lived in denial to avoid recognizing just how much of our life was controlled by our addiction.

Finally, our addiction took priority over everything: our ability to work, live in the real world, relate with others and be close to God. What began as the cure had become the sickness. The Answer had become the Problem. We were hopelessly addicted to lust.

Overcoming Lust and Temptation

A new loneliness overwhelmed us as we realized that, because of our addiction, we had become increasingly separated from God and our loved ones. We began to seek sobriety, and as we stayed sexually sober for some length of time, we discovered that even though we may not be acting out our compulsion, our obsession was still with us.

We began to recognize the many disguises the enemy uses to trick us into lusting. We learned not to rely on our failed and weakened selves, but rather, to turn to God's pure love and absolute power. With an increased reliance on God, we worked on our recovery with altered attitudes, a changed heart and growing humility, and we gained a progressive victory over lust.

As we yielded to God, temptation began to lose its control over us. When we admitted we were powerless and gave our lives and our will over to God, He worked in us, and we began enjoying a healthy new balance in our lives. Leaning on and learning from others in the program, we continue to walk in His strength, gaining true freedom from lust and sin through obedience to Christ our Lord.
